Systematic problem-solver
Experience with Node.js
Strong communication skills
MySQL Workbench
Postman

EXPERIENCE

THE DOGGY DESTINATION APP

LaunchCode Final Project

- Developed a fullstack project that is geared towards dog owners in the city who are looking for some "Doggy Destinations" where they can be with their pups and still have fun with others.
- Built a page to display their chosen "pup activity", featuring a description of the activity along with a link to the destination's website.
- Created a "Destination Reviews" page for the user to view, add, update, and/or delete their doggy destination reviews.
- Fullstack Web Application: JavaScript, React, Java, Spring Boot, MySQL Workbench, Postman

HEALTH & WELLNESS DIRECTOR / PERSONAL TRAINER

JULY 2020 - OCTOBER 2024

South City Family YMCA

- Exhibited excellent communication skills with a team of roughly 40 staff members, ensuring all shifts and exercise classes were covered by implementing a more sufficient sub email system.
- Created and collaborated with a team of leaders to help raise money for the staff portion of our Annual Campaign, achieving a donation total that exceeded our goal.
- Hosted health and wellness events for our YMCA members including Zumbathons, Mindfulness meetings featuring yoga and mindful eating tips, along with fitness challenges that anyone could participate in.

BAND DIRECTOR AND FOUNDER

APRIL 2017 - JUNE 2019

Texas Homeschool Music

- Scheduled and conducted annual Spring and Winter performances.
- Balanced a full ensemble with students ranging in age from 13 to 18; teaching complex concepts and displaying proficiency in performing on each instrument within the ensemble.
- Prepared the students to perform for a solo and/or small ensemble judging experience.
